

Claims

1. A collapsible box comprising:
 - a. a front wall;
 - b. a rear wall;
 - 5 c. opposing end walls;
 - d. a bottom wall;
 - e. wherein said walls are operably engaged to selectively convert from an assembled condition defining a recess to a collapsed condition for storage.
- 10 2. A collapsible box as defined in claim 1, wherein said bottom wall is pivotally attached to said front wall.
3. A collapsible box as defined in claim 1, wherein said bottom wall is pivotally attached to said rear wall.
4. A collapsible box as defined in claim 1, wherein there are two opposing end walls, each defining a pivot line delineating front and rear portions.
- 15 5. A collapsible box as defined in claim 1, wherein each of said plurality of said walls is oriented in a vertical orientation when in the stored position.
6. A collapsible box as defined in claim 1, further comprising a lid.
7. A collapsible box as defined in claim 6, wherein:
 - a. said lid defines a front edge; and
 - 20 b. a lip is pivotally attached along said front edge.
8. A collapsible box for use in the bed of a pick-up truck, said box comprising:
 - a. a front wall;
 - b. a rear wall;

- c. opposing end walls;
- d. a bottom wall;
- e. wherein said walls are operably engaged to selectively convert from an assembled condition defining a recess to a collapsed condition for storage.

5 9. A collapsible box as defined in claim 1, wherein said bottom wall is pivotally attached to said front wall.

10. A collapsible box as defined in claim 1, wherein said bottom wall is pivotally attached to said rear wall.

10 11. A collapsible box as defined in claim 1, wherein there are two opposing end walls, each defining a pivot line delineating front and rear portions.

12. A collapsible box as defined in claim 1, wherein said plurality of said walls is oriented in a vertical orientation when in the stored position.

13. A collapsible box as defined in claim 1, further comprising a lid.

14. A collapsible box as defined in claim 13, wherein:

- 15
- a. said lid defines a front edge; and
 - b. a lip is pivotally attached along said front edge.
